

Shape Puzzle:

In the puzzle below, the same shape always contains the same number! Fill in all the shapes in such a way that all the equations are correct:

$$\text{Circle } 45 = 3 \times \text{Square } 15$$

$$\text{Circle } 45 + \text{Square } 15 = 60$$

$$\text{Triangle } 41 - \text{Square } 15 = 26$$
